

GREENWORK

Makes the Dream Work

at

Sun Harbor Marina

At the Green Business Network, we're growing business and saving the environment.

Available to all Port of San Diego tenants and subtenants, we are a voluntary sustainability program that provides **FREE** education and resources to waterfront businesses committed to reducing our collective environmental footprint.

We collaborate with our members on training opportunities and supply resources to help them improve operational efficiency and implement sustainable business practices that keep our bay blue.

At the Green Business Network, we recognize environmental champions like the Sun Harbor Marina, a leader in protecting the San Diego Bay and the future of our communities.

MEMBER OVERVIEW

Sun Harbor Marina is a leading environmental champion of the Green Business Network. As the world's first LEED certified marina, Sun Harbor Marina is dedicated to preserving San Diego's natural beauty for years to come.

SUSTAINABILITY HIGHLIGHTS

Energy Savings

- All 16 offices optimize energy savings features including E Glass, lighting sensors and HVAC timers.
- Restrooms, laundry and shower facilities feature Energy Star Appliances and tankless water heaters.

Renewable Energy

- Renewable wind energy credits are purchased to offset greenhouse gas emissions.

Clean Transportation

- Electric Vehicle Charging Stations, bike storage for marina tenants and reserved parking for carpools are located on-site.

Employee and Tenant Engagement

- 14 participants made up of employees and tenants in the Green Business Network's Green Employee Engagement Campaign and completed three educational lessons, resulting in 68 energy saving actions taken at work and at home.

Water Protection

- Restroom facilities feature low flow showers and toilets.
- The outdoor landscape utilizes drip irrigation and drought resistant plants to conserve water.

Waste Reduction

- Free pump out facilities are provided to the public to encourage proper waste and sewage disposal. As a result, approximately 20,000 gallons of sewage was properly disposed of from July through November of 2019.

Community Outreach

- As a proud participant of International Coastal Cleanup Day, employees and tenants collected 491 pounds of trash and 20 pounds of recyclables from the surrounding area last year.

Sustainable Buildings

Sustainable materials are utilized throughout the facility including:

- Floor mats made from 100% recycled nylon reinforced truck and airplane tire strips.
- Benches made from 100% recycled wood and lumber.
- Carpeting with 25% recycled carpet fiber.
- Roofing with 30% recycled steel.
- Cabinetry and non-carpet flooring is made from bamboo grass.

The Port of San Diego thanks Sun Harbor Marina because green communities don't just happen. We make them happen together.
